Subject: Summary and details of current number of FY18 removal completions
Attachments: RMVL-004%20Removal%20Completions_Summary.pdf; RMVL-004 output 2018.9.19.xlsx

Hello everyone,

I received a request to share the information on the current status of number of removal completions for FY18 before the RM/ST call this afternoon, and you can find that information attached to this e-mail.

The PDF file is the summary information for each region, and the Excel file is the detailed information about which sites are being counted in this information at this point. For end of year GPRA reporting, I don't yet have a date by which we will be finalizing those numbers.

Please let me know if you have any questions or concerns,

Rob Fox
